

*A position must stand or fall
based on what the Scriptures
actually teach.*

— the thesis of this booklet

More than seventy years ago, a division took place among the churches of Christ. Most of those who live with its consequences today have never had the division fairly explained to them.

This booklet states both positions — institutional and non-institutional — in the way their best advocates would state them, walks the relevant Scriptures text by text, and lets the text carry the conclusion.

Eleven chapters across four parts, written for the reader who wants to think for himself in front of the open Bible.

Read with the Book open.

Scripture quotations from the New American Standard Bible® (NASB).
