

Is Baptism Really Necessary?

A study from the Scriptures alone

What if everything you were taught about baptism wasn't what the Bible actually says?

This study asks one thing of you: set aside what men have taught, and look at what the Scriptures say for yourself.

Inside you will find every command Jesus gave concerning baptism. Every passage the apostles wrote about it. Every conversion recorded in the book of Acts — nine in all — and what happened in every single one.

You will also find honest answers to every common objection: salvation by grace alone, faith alone, the thief on the cross, and more.

No opinion. No denomination. Just the text.

Check every verse. Follow wherever it leads.
